R-TF5000CiP

The TOPFIELD TF5000CiP is a Free to Air Satellite Receiver, with Dual Common Interface and Built-In Actuator Positioner

Features:

- Removes the need for a separate positioner unit / power supply, with all programming and motor control done through the one box and remote
- High Power Azimuth / Elevation Control (36Vdc / 3A)
- S/PDIF for Digital Audio Output and LNB Loop Through
- RF Modulator, Dual Scart and Component Output
- Channel and Volume up/down, standby buttons and 4 Digit LED on front panel
- 4000 Programmable Channels (TV & radio)
- Favourite Channel Listing
- Dual Common Interface for use with Irdeto, Viaccess, and MediaGuard CAM's etc (can be used with two cards at once)
- Teletext and Subtitle supported, EPG (Electronic Program Guide) for on screen channel information (where available).
- Parental lock facility (by channel or specific program)
- Fully MPEG-2 Digital and DVB (Digital Video Broadcasting) compliant
- Channel selection by Satellite grouping
- 0/12V Control Voltage Output, DiSEqC 1.0 & 1.2 Compatible (Multiple Dish or Motorised System), LNB Skew Control
- Satellite Listings Pre-Programmed with ultra fast channel searching

R-C.I.Irdeto
